

NIKITA PUTRI PRABOWO

Computer Science Student | Software Engineer | +6281282109806
nikitaprabowo27@gmail.com | www.linkedin.com/in/nikita270905 | West Java

SUMMARY

Computer Science student at Universitas Padjadjaran with experience in software development, web application development, project management, and data science. Skilled in developing responsive web applications, translating business requirements into scalable technical solutions, and leveraging Python, JavaScript, SQL, and modern web technologies to build user-focused applications. Proven ability to lead cross-functional teams, manage projects from planning to delivery, and leverage data-driven insights to solve real-world problems. Passionate about building impactful, scalable, and user-centric technology solutions.

EDUCATION

Computer Science, Universitas Padjadjaran
Sumedang, Indonesia

Aug 2023 - Aug 2027 (Expected)

- Cumulative GPA: **3.83 / 4.00**
- Relevant Courses: Web Development, Software Engineering, Database Systems, Artificial Intelligence, Machine Learning, System Analysis & Design, Project Management, Data Mining.

WORK EXPERIENCE

Universitas Padjadjaran

Frontend Developer Internship

Mar 2026 - Jun 2026

- Designed and implemented the UI/UX of **16+ website pages** for the AHS Universitas Padjadjaran platform, creating intuitive and user-friendly digital experiences.
- Developed responsive website interfaces using WordPress, optimizing usability across desktop, tablet, and mobile devices.
- Collaborated with stakeholders to transform requirements into functional, visually appealing, and accessible web pages.
- Maintained website quality through performance optimization and cross-browser compatibility testing.

Kementerian PPN/Bappenas

Project Manager Internship

Jan 2026 - Feb 2026

- Assisted in managing project workflows and task tracking using Coda to improve team coordination and visibility of project progress.
- Monitored project timelines and followed up on task completion to support timely delivery of project milestones.
- Reviewed project requirements and relevant government regulations to support application development activities.
- Coordinated communication among team members and stakeholders to facilitate smooth project execution.

Klinkgo x Rakamin Academy

Project-Based Virtual Intern as System Analyst

Sep 2025

- Conducted user requirement analysis and translated business needs into detailed system specifications, consistently receiving **90+ evaluation scores** for analysis quality and documentation.
- Designed **5+ UML diagrams** (Use Case & Activity Diagram) and ERD models to visualize system structures, business processes, and workflows.
- Defined and documented **20+ functional requirements** to support early-stage system design and development activities.

IT PROJECTS

CareConnect

Project Manager, Scrum Master, Quality Assurance

Mar 2026 - Jun 2026

- Led Agile planning across **8 sprints** and coordinated frontend-backend teams to deliver CareConnect, a responsive web platform for anonymous reporting, psychologist consultation, community support, donations, dashboards, and AI Insight.
- Documented **20+ functional requirements** and created role-based workflows, UML diagrams, ERD, test scenarios, and technical documentation to support development.
- Executed QA using Vitest, achieving **99.15% statement coverage** and **99.35% line coverage** across internal testing.
- Conducted usability and user-experience evaluation achieving a SUS score of **78.94 (Good)** and **all positive** UEQ scores across all 6 dimensions.

Loan Predictor

Frontend Developer, Machine Learning Trainer

Mar 2026 - Apr 2026

- Built an end-to-end loan prediction web application using **Python, Streamlit, and Neuro-Fuzzy algorithms**.
- Developed interactive dashboards for real-time prediction and user input analysis.
- Achieved approximately **76% prediction accuracy** through feature engineering and model optimization.
- Integrated machine learning outputs into a user-friendly decision support interface.
- Link: <https://loan-prediction-loaniq.streamlit.app/>

Loyalitics Decision Maker

Main Developer

Aug 2025 - Dec 2025

- Developed a customer churn analysis platform using Python and Streamlit.
- Implemented **Random Forest, Decision Tree, and K-Means algorithms** to generate customer segmentation insights.
- Built interactive data visualization dashboards to support business decision-making.
- Automated data processing workflows, reducing manual analysis efforts.
- Link: <https://loyalitics-desicionmaker.streamlit.app/>

MediCare+ (Hospital Pharmacy Digital Queue & Delivery)

Project Manager

Aug 2025 - Dec 2025

- Led the development of a multi-role healthcare web application involving patients, pharmacists, couriers, and administrators.
- Managed project planning, task allocation, and sprint coordination to ensure timely feature delivery.
- Coordinated communication among team members and monitored project progress using Git-based collaboration workflows.
- Oversaw requirement analysis, feature prioritization, and quality assurance throughout the **development lifecycle**.
- Facilitated collaboration between technical and non-technical stakeholders to achieve project objectives.
- Link: medi-care-rosy.vercel.app

BISINDO Alphabet Recognition

Machine Learning Trainer

Apr 2025 - Jun 2025

- Developed a computer vision-based application for BISINDO gesture recognition using **Python, TensorFlow, and OpenCV**
- Trained a CNN model achieving **~85% accuracy** in classifying BISINDO alphabet gestures
- Built a real-time detection and classification system to recognize and interpret hand gesture inputs
- Link: <https://github.com/nikitaptrii/Deteksi-Huruf-BISINDO-Kelompok6>

ORGANIZATION AND LEADERSHIP

Himatif FMIPA Unpad

External Affairs Staff

Feb 2024 - Dec 2025

- Secured **15+ partnerships** and managed **20+ media collaborations**, expanding organizational reach and publication exposure.
- Initiated and executed **5+ collaboration** and benchmarking programs with external institutions.
- Produced and published **1** social media content per month, generating up to **51K+ views** and increasing audience engagement.
- Strengthened partnerships by coordinating external communications and institutional engagement.

Informatics Festival x Himatif Unpad

Marketing and Branding Manager

May 2025 - Oct 2025

- Increased Instagram followers by **400+ through targeted content and engagement strategy**
- Maintained consistent digital presence by executing weekly content (**≥4 posts/week**)
- Contributed to attracting **1000+ participants** across the event series through strategic branding and marketing execution

Informatics Festival x Himatif Unpad

Marketing and Branding Manager

May 2024 - Oct 2024

- Coordinated **1 department** and **3 divisions** to deliver IFEST 2024 for **400+ participants**, ensuring seamless event execution.
- Managed project planning, task delegation, and timeline execution across multiple teams to ensure smooth event operations.
- Collaborated with **10+ committee leads** and stakeholders, achieving **100% on-time** completion of key event milestones.

SKILLS

Technical Skills

- **Programming:** Python, JavaScript, SQL, PHP
- **Web Development:** React, Next.js, Laravel, Tailwind CSS, HTML, CSS, TypeScript
- **Machine Learning & AI:** TensorFlow, OpenCV, Convolutional Neural Networks (CNN), Random Forest, Decision Tree, K-Means Clustering, Natural Language Processing (NLP), LLM, RAG
- **Data:** Data Cleaning, Data Preprocessing, Data Visualization, Data Validation, Feature Engineering, Text Classification
- **Testing & Documentation:** Postman, Vitest, Laravel Dusk, Requirement Analysis, UML, ERD
- **Tools:** Git, GitHub, Streamlit, Figma, Trello

Professional Skills

- Communication, Project Management, Leadership, Teamwork, Time Management

LANGUAGES

- Bahasa Indonesia (Native), English (Intermediate)
